SKILLS

Programming Languages: Python , HTML, CSS , SQL, JavaScript, Web Development

Developer Tools: Git, GitHub, VS Code

Tools : MS Word, MS PowerPoint, Microsoft Excel

PROJECTS

Online Payment Fraud Detection | *Python, Scikit-learn, Pandas, NumPy*

- Designed and implemented a supervised machine learning model to detect fraudulent online transactions from transactional data, directly relevant to payments and financial-risk analytics.
- Performed end-to-end data preprocessing, cleaning, and feature engineering on transaction datasets to improve model input quality.
- Evaluated multiple classification approaches and tuned model parameters to achieve high accuracy in real-time fraud identification.
- Summarized model performance and key fraud indicators into clear, actionable findings for non-technical review.

Groco — Online Grocery Store | *HTML, CSS, JavaScript*

- Developed a responsive front-end e-commerce website with product listings, category filters, and a clean, intuitive user interface.
- Optimized layout and functionality for cross-browser compatibility and mobile responsiveness, improving overall user experience.

CERTIFICATIONS

- Generative AI — Google Cloud
- Data Analyst — Deloitte
- Cloud Computing — AWS

EDUCATION

ABES Engineering College

2021 – 2025

B.Tech in Information Technology

Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Web Technology, Object-Oriented System Design, Operating Systems, Computer Networks, Software Engineering, Artificial Intelligence, Machine Learning Techniques, Data Analytics, Cloud Computing, Computer System Security.
